EXPERIENCE

May 2014-Current

Design Assistant | A Gier Design

- Responsible for fulfilling customer orders as well as maintaining the Etsy, Amazon Sellers, and A Gier Design eShops
- Experience using Adobe Photoshop and Illustrator to create custom artwork for orders
- Worked with Amelia (owner) to complete and ship orders efficiently
- Provided a satisfactory customer experience by working one on one with customers until they were pleased with their art

March 2016

Front End Dev | Microgroove

- Responsible for creating the prototype of an upcoming web app using ReactJS
- Worked with technical coordinator to implement various aspects of functionality (mobile gestures, infinite scroll, etc.)
- Collaborated with other developers to work through technical challenges and overcome obstacles
- Met specific deadlines by problem solving and thinking critically

September 2015-December 2015

Student | General Assembly

- Full Stack web development boot camp, building web apps using Node, Express, Angular, and Rails
- 70+ hours per week, including classroom time and outside projects/homework
- Graduated with extensive experience building full-scale web apps. Worked both individually and in groups to complete projects

May 2009 - September 2015

Musician | Drummer | Educator

- Full time drummer touring, performing live, and in studio for various bands/artists in Boston, Nashville, and Seattle
- Private drum teacher for students of all ages and levels, developed strategies and lesson plans to help each student improve
- Conducted group lessons that focused on core concepts of drumming/musicality
