creative, a natural teacher, team oriented, self-driven, reliable

EXPERIENCE

May 2016 - January 2017

Front End Dev | Rational Interaction

- Worked as the front end dev on responsive websites for various clients including Microsoft and Acer
- Collaborated with an in-house design team to create robust UI experiences on mobile, tablet, and desktop
- Implemented new technologies including: VueJS, Flexbox, Sass/Less, and ES6
- Worked independently, made architecture decisions and met deadlines without guidance

March 2016

Front End Dev | Microgroove

- Created the prototype for an upcoming web app using ReactJS
- Worked with technical coordinator to implement various aspects of functionality (mobile gestures, infinite scroll, etc.)
- Collaborated with other developers to work through technical challenges and overcome obstacles
- Met specific deadlines by problem solving and thinking critically

September 2015-December 2015

Student | General Assembly

- Full Stack web development boot camp, building web apps using Node, Express, Angular, and Rails
- 70+ hours per week, including classroom time and outside projects/homework
- Extensive experience building full-scale web apps. Worked both individually and in groups to complete projects

May 2009 - September 2015

Musician | Drummer | Educator

- Full time drummer touring, performing live, and in studio for various bands/artists in Boston, Nashville, and Seattle
- Private drum teacher for students of all levels, developed strategies and lesson plans to help each student improve
- Conducted group lessons that focused on core concepts of drumming/musicality

EDUCATION

Berklee College of Music 2005-2009
